

# Homework 6

## Will Theuer

## 1 Subject person marking

In Amharic, subject person marking differs in each tense.

### 1.1 Past positive, negative

In the past tense, there are different affixes depending on whether the verb root ends in a consonant or a vowel. Example (1) shows the different forms for a verb ending in a consonant.

- |                                       |   |
|---------------------------------------|---|
| (1) <i>mezemir</i> ‘to sing’          |   |
| <i>zemer-ku</i> <sup>1</sup> ‘I sang’ | <i>al-zemer-ku-m</i> ‘I didn’t sing’          |
| <i>zemer-k</i> ‘You (m) sang’         | <i>al-zemer-k-im</i> ‘You (m) didn’t sing’    |
| <i>zemer-sh</i> ‘You (f) sang’        | <i>al-zemer-sh-im</i> ‘You (f) didn’t sing’   |
| <i>zemer-e</i> ‘He sang’              | <i>al-zemer-e-m</i> ‘He didn’t sing’          |
| <i>zemer-ech</i> ‘She sang’           | <i>al-zemer-ech-im</i> ‘She didn’t sing’      |
| <i>zemer-en</i> ‘We sang’             | <i>al-zemer-en-im</i> ‘We didn’t sing’        |
| <i>zemer-achu</i> ‘You (pl) sang’     | <i>al-zemer-achu-m</i> ‘You (pl) didn’t sing’ |
| <i>zemer-u</i> ‘They sang’            | <i>al-zemer-u-m</i> ‘They didn’t sing’        |

By contrast, (2) shows the forms for a verb root ending in a vowel.

- |                                   |   |
|-----------------------------------|---|
| (2) <i>mesrat</i> ‘to work’       |   |
| <i>sera-w</i> ‘I worked’          | <i>al-sera-w-m</i> ‘I didn’t work’          |
| <i>sera-h</i> ‘You (m) worked’    | <i>al-sera-h-im</i> ‘You (m) didn’t work’   |
| <i>sera-sh</i> ‘You (f) worked’   | <i>al-sera-sh-im</i> ‘You (f) didn’t work’  |
| <i>sera</i> ‘He worked’           | <i>al-sera-m</i> ‘He didn’t work’           |
| <i>sera-ch</i> ‘She worked’       | <i>al-sera-ch-im</i> ‘She didn’t work’      |
| <i>sera-n</i> ‘We worked’         | <i>al-sera-n-im</i> ‘We didn’t work’        |
| <i>sera-chu</i> ‘You (pl) worked’ | <i>al-sera-chu-m</i> ‘You (pl) didn’t work’ |
| <i>ser-u</i> ‘They worked’        | <i>al-ser-u-m</i> ‘They didn’t work’        |

We see that if the affix begins with a vowel, this vowel is dropped when the verb ends in a vowel (with the exception of the third-person plural form *seru*).

### 1.2 Present/future positive, negative

In the present tense, there are many different forms for the positive and negative. Each form requires a prefix and a suffix, which is summarized in table 1.

---

<sup>1</sup>Arsima was unsure if this form was correct, and also provided *zemerkuwin*

- (3) *merot* ‘to run’  
*iné i-rot’-al-ew* ‘I run’  
*ante ti-rot’-al-eh* ‘You (m) run’  
*anchí ti-roch’-al-esh* ‘You (f) run’  
*isu yí-rot’-al-e* ‘He run’  
*iswa ti-rot’-al-ech* ‘She run’  
*inya in-rot’-al-en* ‘We run’  
*inante ti-rot’-al-achu* ‘You (pl) run’  
*inesu yí-rot’-al-u* ‘They run’
- iné al-rot’-im* ‘I don’t run’  
*ante at-rot’-im* ‘You (m) don’t run’  
*anchí at-roch’-im* ‘You (f) don’t run’  
*isu ay-rot’-im* ‘He doesn’t run’  
*iswa at-rot’-im* ‘She doesn’t run’  
*inya an-rot’-im* ‘We don’t run’  
*inante at-rot’-um* ‘You (pl) don’t run’  
*inesu ay-rot’-um* ‘They don’t run’

Table 1: Present/future affixes

form	positive	negative
1S	<i>i- -al-ew</i>	<i>al- -im</i>
2SM	<i>ti- -al-ew</i>	<i>at- -im</i>
2SF	<i>ti- -al-esh</i>	<i>at- -im</i> <sup>2</sup>
3SM	<i>yí- -al-e</i>	<i>ay- -im</i>
3SF	<i>ti- -al-ech</i>	<i>at- -im</i>
1P	<i>in- -al-en</i>	<i>an- -im</i>
2P	<i>ti- -al-achu</i>	<i>at- -um</i>
3P	<i>yí- -al-u</i>	<i>ay- -um</i>

## 2 Object person marking in transitive verbs

In transitive verbs, the direct object is marked by a verbal suffix which occurs after the subject suffix.

- (4) *ak’if-ke-ny*  
hug-2SM.SUBJ-1S.OBJ  
‘You (m) hugged me’
- (5) *mak’if* ‘to hug’  
*ak’if-e-ny* ‘He hugged me’  
*ak’if-e-h* ‘He hugged you (m)’  
*ak’if-e-sh* ‘He hugged you (f)’  
*ak’if-e-w* ‘He hugged him’  
*ak’if-at* ‘He hugged her’  
*ak’if-e-n* ‘He hugged us’  
*ak’if-achu* ‘He hugged you (pl)’  
*ak’if-achew* ‘He hugged them’

<sup>2</sup>This form also has palatalization in the verb root.

<sup>3</sup>This possibly becomes *-n* after a palatalized consonant.

Table 2: Subject and object suffixes

form	subject	object
1S	<i>-ku</i>	<i>-eny</i>
2SM	<i>-k</i>	<i>-eh</i>
2SF	<i>-sh</i>	<i>-ish</i>
3SM	<i>-e</i>	<i>-t, -ew</i>
3SF	<i>-echi</i>	<i>-(w)at</i>
1P	<i>-en</i>	<i>-en<sup>3</sup></i>
2P	<i>-achu-</i>	<i>-(w)achu</i>
3P	<i>-u</i>	<i>-(w)achew</i>
